Home Security Tips

- Trim hedges, trees and foliage away from windows and doors, to prevent apparent hiding places for intruders.
- Be careful where you leave your spare keys. Intruders check window ledges and under flowerpots and welcome mats.
- Install deadbolt locks on all exterior doors.
- Change your answering machine message so it doesn't indicate you're not at home. Instead, say that you "can't come to the phone."
- Get to know your neighbors. Team up and form a crime watch program. Your local police can help you get started.
- Ask for identification from service representatives and never leave them in your home unsupervised.
- Use timers for lights, television and sound systems to turn them on and off at different times to give your home a lived-in look while you are away.
- Permanently mark your valuables in your household. Keep pictures and records of all marked objects in a safe place.
- If you are going away for an extended period of time, remember to do the following:
 - Stop mail and paper delivery.
 - Leave a car in your driveway.
 - Have someone mow your lawn, rake leaves and shovel snow.
